## **MISSISSIPPI VALLEY REGIONAL BLOOD CENTER**

### Laboratory Design & Build

## **THE ORGANIZATION**

Mississippi Valley Regional Blood Center (MVRBC) is the exclusive provider of blood products and services to more than 110 hospitals in Illinois, Iowa, Missouri and Wisconsin.

The 501(c)(3) not-for-profit blood center was established in 1974 and operates as Central Illinois Community Blood Center (Springfield, Illinois) and Community Blood Services of Illinois (Champaign-Urbana, Illinois).

## **THE PROBLEM**

The client started out with phenolic counter top order back in 2016. The end user was needing to replace two countertops in her lab. In 2017, one of our sales reps reached out to her on new projects and emailed the brochures. The end user needed packing stations and workstations for the company's blood lab due to increase in work.

In 2019, the organization relocated to a bigger facility and tables/casework were needed for the Reference lab in Earth City, Missouri. The end user reached out stating her IMD department needed workstations and providing drawings for tables she needed. We were more than willing to meet her requests.

# OnePointe Solutions Case Study

## MISSISSIPPI VALLEY REGIONAL BLOOD CENTER

### Laboratory Design & Build

## THE PROJECT

The design for this project was completed in two phases:

Phase 1: Finalized the details of what the end user needed: mobile tables due to their growth, hydraulic height range for techs and a lead time.

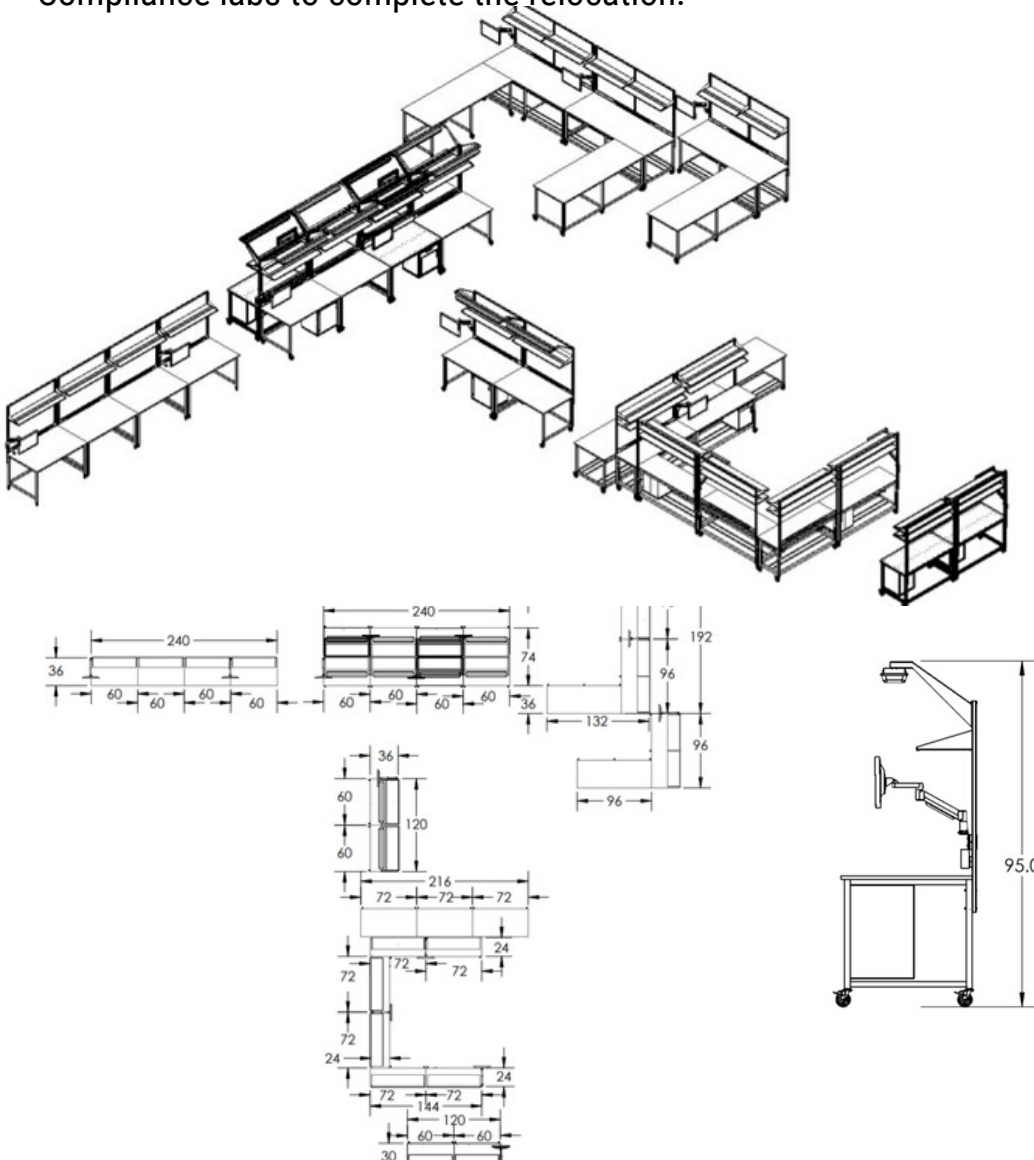

Phase 2: Tables and casework were provided for their HemeBacT & Compliance labs to complete the relocation.

## Technical Specifications

Lab Casework  
Mobile Tables  
Fume Hood  
Workstations

## Material & Colors

Papyrus White  
Phenolic Resin - Black

The installation for this project took a total of four days.
