Wilsonart

QUARTZ

Wilsonart

Is that Solid Surface?  
Solid Surface is a composite material made of natural stone and acrylic resin. It's a solid, non-porous material that's easy to clean and maintain. It's also a great choice for countertops, vanities, and more. Find out more about the benefits of Solid Surface at [www.wilsonart.com](http://www.wilsonart.com).

# WARRANTY

ONEPOINTE SOLUTIONS WARRANTS FOR A PERIOD OF ONE (1) YEAR BEGINNING AT THE DATE OF SUBSTANTIAL COMPLETION, THAT ALL PRODUCTS SOLD UNDER THE CONTRACT REFERENCED ABOVE SHALL BE FREE FROM DEFECTS IN MATERIAL AND WORKMANSHIP. ONEPOINTE SOLUTIONS MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, WRITTEN OR ORAL, INCLUDING, BUT NOT LIMITED TO, THOSE OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. PURCHASER SHALL NOTIFY ONEPOINTE SOLUTIONS IMMEDIATELY OF ANY DEFECTIVE PRODUCT. ONEPOINTE SOLUTIONS SHALL BE GIVEN REASONABLE OPPORTUNITY TO INSPECT THE PRODUCT PRIOR TO ITS RETURN. NO PRODUCT SHALL BE RETURNED TO ONEPOINTE SOLUTIONS UNTIL RECEIPT BY PURCHASER OF WRITTEN SHIPPING INSTRUCTIONS FROM ONEPOINTE SOLUTIONS. PURCHASER'S EXCLUSIVE REMEDY, AND ONEPOINTE SOLUTIONS'S SOLE LIABILITY, SHALL BE, AT ONEPOINTE SOLUTION'S SOLE OPTION, REPAIR OR REPLACEMENT OF THE NONCONFORMING PRODUCTS OR THEIR PARTS, OR REFUND OF THE PURCHASE PRICE. ONEPOINTE SOLUTIONS SHALL NOT BE LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES, LOSSES OR EXPENSES WHETHER INCURRED IN CONNECTION WITH INJURY TO PERSONS OR PROPERTY.

### ALIGNED TEXTURE

Aligned Texture is the latest innovation from Wilsonart, using synchronized texture and visual pattern for designs with striking clarity and richness. The first dynamic collection of woodgrain colorways features the Aligned Oak texture (-57)- where authentic realism is brought to the surface as each elegantly aged oak design exhibits the natural dimension and feel of real wood.

## INNOVATIVE SOLUTIONS

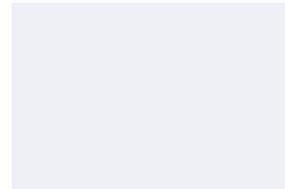

Improve your surfaces with Antimicrobial Protection featured on HD® Premium designs. Antimicrobial Protection is built directly into the laminate to protect the surface against damaging microbes such as mold and mildew that cause odors.

WILSONART® is a trademark of Wilsonart International, Inc. registered in the United States and other countries. HIGH DEFINITION, HD, and AEON are also trademarks of Wilsonart LLC.

## LAMINATE SURFACE TEXTURES

WILSONART® is a trademark of Wilsonart International, Inc. registered in the United States and other countries. HIGH DEFINITION, HD, and AEON are also trademarks of Wilsonart LLC.

**#01 HIGH GLOSS - PREMIUM** 

A mirror sheen finish, which gives a smooth, brilliant appearance. Recommended for horizontal applications such as countertops and light-to medium commercial applications. Excellent for vertical application.

**#07 TEXTURED GLOSS - PREMIUM** 

A textured finish which reproduces the high sheen of waxed wood furniture. Recommended for horizontal and vertical application.

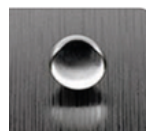

**#12 SOFTGRAIN - PREMIUM** 

A dense, woodgrain structure that is low gloss and soft to the touch. Subtle highlights of reflectivity randomly occur within the embossed grains, creating a sophisticated raw wood look. Recommended for horizontal and vertical application.

**#16 CASUAL RUSTIC - PREMIUM** 

A woodgrain texture with a blend of grain variations ranging from linear to subtle movement with random, irregular features. The overall low gloss surface is accented with higher sheen woodgrain ticking and random highlights. Recommended for horizontal and vertical application.

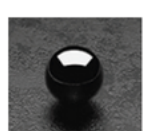

**#18 LINEARITY - PREMIUM** 

A directional texture running the length of the sheet, having a narrow, random, matte-gloss linear quality. It is complementary to linear woodgrains, and linear patterns and provides dimension and visual movement to solid colors. Recommended for horizontal and vertical application.

**#19 LENO WAEVE\* - PREMIUM** 

Random intersecting horizontal and vertical lines create a geometric weave with a mattegloss mix. Recommended for horizontal and vertical application.

**#22 ANTIQUE - PREMIUM** 

A mixture of varying low gloss features combined with organic movement, indicative of the surface of an aged stone or an antique metal. Recommended for horizontal and vertical application.

**#28 GLOSS LINE - PREMIUM** 

A linear woodgrain texture with varied widths of narrow grain structures in an alternating mix of matte and gloss surface areas. Recommended for horizontal and vertical application.

**#35 FINE VELVET TEXTURE** 

A smooth textured finish with moderate reflective value. Recommended for horizontal and vertical application.

**#52 QUARRY - PREMIUM** 

Premium finish emulating the "pitted" look of polished natural stone. Recommended for horizontal and vertical application.

**#60 MATTE** 

Textured finish with a moderate reflective quality. Recommended for horizontal and vertical application.

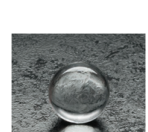

**#78 FINEPRINT - PREMIUM** 

This premium finish features the polish and luxe of a real wood veneer, with a subtle, narrow grain structure that runs the length of the sheet. Recommended for horizontal and vertical application.

**#35 MIRAGE - HD PREMIUM**  

This premium finish features the polish and luxe of a real wood veneer, with a subtle, narrow grain structure that runs the length of the sheet. Recommended for horizontal and vertical application.

**#55 GLAZE - HD PREMIUM**  

A layering of matte features over a glaze of semi-gloss, creates this timeworn effect. Recommended for horizontal and vertical application.

**#57 ALIGNED OAK\* - HD PREMIUM**  

Authentic realism is brought to the surface using synchronized texture as each elegantly aged oak design exhibits the natural dimension and feel of real wood. Recommended for horizontal and vertical application.

 Finish features AEON™ Enhanced Performance Technology, providing 3x industry standard wear resistance, improved scratch, scuff and mar performance, versus comparable competitive finishes.

 ANTIMICROBIAL PROTECTION is built into the laminate to protect the surface against damaging microbes. Antimicrobial agents protect the surface from the growth of mold and mildew that cause odors when used for countertops and work surfaces.

Lasting inspiration from Montréal

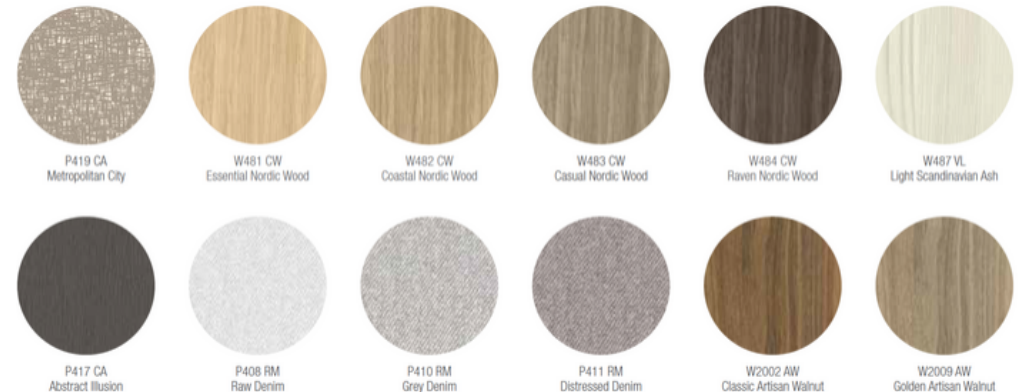

### NEUTRALS

## Balancing the scales with neutrals

The emerging color story of "neutral" responds to the desire for simplicity within busy modern living. Technology makes us efficient and able to take on more tasks. But being always connected and always "on" can feel hectic. So, we seek to declutter and reduce the noise within our spaces. Natural, organic hues and soft-to-mid tones feel soothing and authentic. Greys, from light to charcoal, warm spice colors such as saffron, turmeric and cinnamon, and rich creams all contribute to a calm, clean look.

Neutral color trends set the stage for strong statement surfaces in color and texture. Flooring, with its definitive area, is increasingly delivering large-scale designs in both hard surfaces and carpet. With beautiful, bold aesthetics underfoot, we've developed our new collection to be timeless and minimalist. In other areas, intricate patterns or interesting textures are used with tone-on-tone neutrals to add interest without adding noise. The quiet woodgrains and small-scale abstract patterns of our laminates work with other materials to create harmonious spaces.

### GREEN AND BLUE

# Putting green and blue to work for you

Underlying trends of biophilia and health/wellness bring blues and greens into commercial, healthcare and hospitality environments. As the scale of botanical patterns increases in carpet and upholstery, the tone of blues and greens becomes more temperate and subdued. Sage greens and mid-tone blues with a soft grey or silver undertone feel warm and inviting. While a bottle green with bluish or metallic undertones feels cool and crisp.

As a durable surface, laminate tends to pull color when light reflects off other materials. The result can be the dreaded unintentional color-flip, where a color looks completely different in context of the application. To remedy this, we've built very specific warm and cool undertones into our designs. Multiple colorations within patterns intentionally line up to bring out the intended hues of the other materials in the palette so that colors stay true.

## The bold and the beautiful

The color story of red, orange and pink is moving toward rich and saturated tones. Dark shades such as merlot, sediment, clay, baked earth, terra cotta, and even aubergine, are balanced with vibrant jewel tones. Purple, pink, fuchsia, apricot and peach are appealing and warm. Bold patterns accompany the bold colors, though often as tone-on-tone to mute the look so it does not become distracting.

Mixing and layering different scale and structure of bold reds, oranges and pinks is a great way to add contrast and interest into a design with paint, carpet, upholstery and other soft surfaces. Our laminate's job is to create an environment that will support today's bold aesthetic, while being versatile enough to adapt to tomorrow's. Our designs are demure, elegant, timeless, and able to accept big patterns from other materials without making the space look heavy or busy.

## NEW COLLECTION

Please request an actual chip for color or pattern verification at [arborite.com](http://arborite.com) or 1.800.361.8712

### Denim

Inspired by the classic textile in which the warp thread is dyed while the weft thread is left white, Denim features a diagonal ribbing that is refined and pleasing.

### City

Like intersecting streets in a metropolitan landscape, City balances movement with order for a series of designs that are sophisticated and inclusive.

### Nordic Wood

Minimalist and unpretentious, Nordic Wood's easily pleasing structure is clean and comforting. The design's new low sheen CW (Casual Wood) finish adds visual interest with soft ticking.

### Arcadian Oak

Arcadian Oak delivers a substantial wood aesthetic, yet the subtle grain and gentle coloration prevent the design from being heavy or demanding.

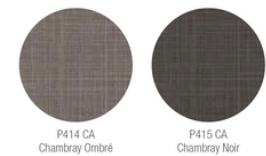

### Artisan Walnut

Elevated by the application of the new registered embossed AW finish, our Artisan Walnuts carry texture that exactly matches the design for unprecedented fidelity.

### Chambray

Named for a distinctive weave of linen that produces a mottled appearance, Chambray's organic, fibrous look offers neutral tones that blend beautifully with woodgrains.

### Illusion

Intriguing and versatile, Illusion incorporates both organic woodgrain elements and abstract geometric elements into a finely-built design.

### Contemporary Maple

These carefully-crafted maple designs were built with warm and cool undertones to prevent color-flipping and ensure the look stays true in any application.

### Scandinavian Ash

The structure of Scandinavian Ash is soothing, offering design longevity that harmonizes with bolder patterns and colors.

### Just In

Responding to European trends, Arborite's new collection combines color, market and material trends with insights from the architecture and design community to deliver solutions. With a focus on woodgrains, the designs in our new collection are at home in neutral color schemes but can also work seamlessly with pops of color. Our laminates are developed to integrate into a larger palette and tie other elements together— quietly grounding bolder material specifications without competing.

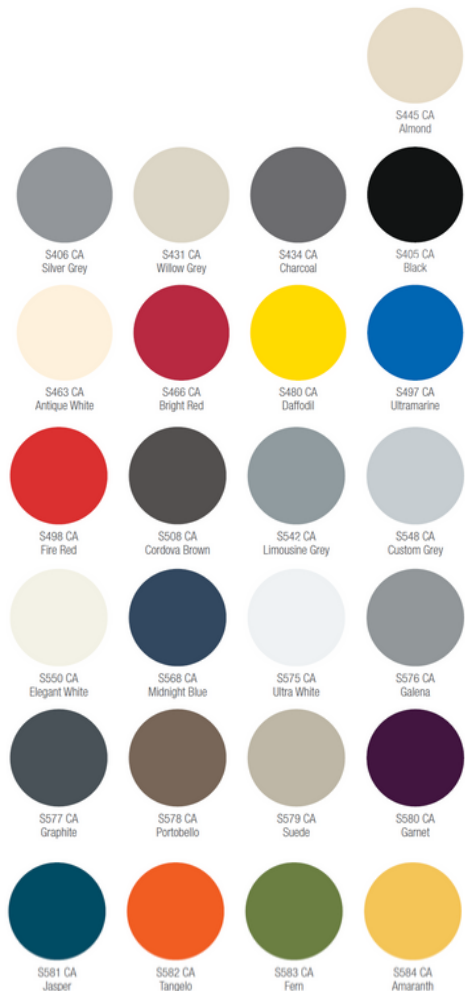

## STANDARD COLLECTION

### Just Solids

Featuring timeless hues, adaptable neutrals, elegant greys and dynamic brights, our solids collection includes simple basics and stand-out colors. They are available in a standard matte finish, or can be enhanced with a premium texture.

### JustWood

With a combination of realistic and wood-inspired designs these curated, organic patterns provide opportunity to achieve the look of rare and endangered woods sustainably. Specify classic wood patterns for use in applications where performance matters. Adding a premium texture to our woodgrains enhances their fidelity, so your project looks great in the long run.

## STANDARD COLLECTION

### Just Patterns

Our patterns incorporate a unique and expansive selection of abstract designs. With geometric shapes, textile/organic motifs, metallics, concrete-inspired looks and engineered stones these collections provide endless inspiration. Flexible and versatile, these options seamlessly complement other materials within an environment. Patterns are available in a standard finish or can be enhanced with other available textures.

● New

## SPECIALTY COLLECTION

Arborite has you covered with specialty products engineered to provide solutions to specific needs in many different segments and applications.

### Pure

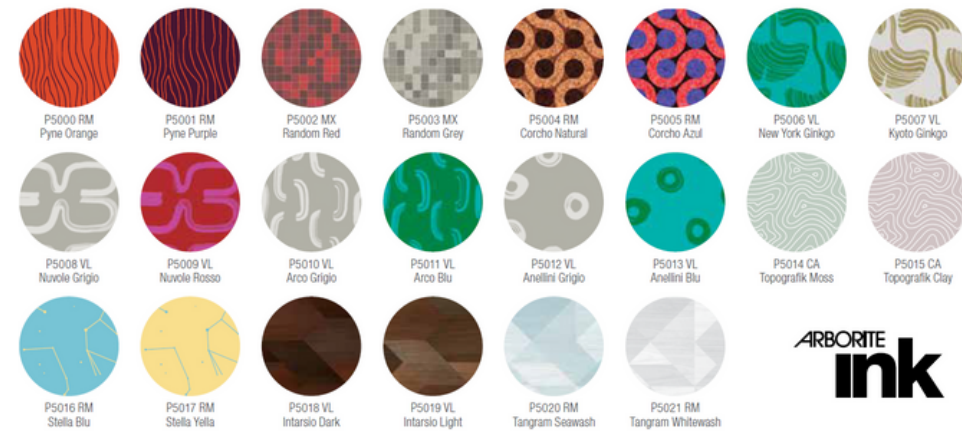

Keeping your surfaces streak free has never been easier with Arborite's Pure collection. With a luxurious, velvety texture, Pure features fingerprint-resistant technology to ensure that your high-traffic areas are free of fingerprints and smudges. As with all Arborite products, Pure is easy to clean, heat resistant and durable.

ARBORITE

## IdealEdge®

PERFECT FROM ANY ANGLE *by* FORMICA GROUP

IdealEdge® by Formica Group offers decorative edges that bring a fresh look to laminate countertops, islands and work tables. What you see is a perfectly finished edge. What you don't see is the brown seam line visible with a conventional flat edge. Suitable for curved, clipped or 90-degree corners, IdealEdge® offers an easy, affordable way to add a smooth, clean finish to any laminate countertop.

Available in four versatile edge profiles—Double Radius, Waterfall, Bullnose and Ogee.

**Double Radius**  
Radio doble  
Double Rayon

**Bullnose**  
Redoneado  
Arrondi

**Waterfall**  
Cascada  
Cascade

**Ogee**  
Biselado  
Doucine

IdealEdge®  
PERFECTO DESDE CUALQUIER ÁNGULO BY FORMICA GROUP

IdealEdge® by Formica Group ofrece perfiles decorativos que proporcionan una apariencia actual a las cubiertas de cocina, islas y mesas de trabajo. Lo que se ve, es un perfil perfectamente acabado. Lo que no se ve es la unión oscura que es visible en un perfil plano convencional. Adecuado para esquinas curvas, recortadas o a 90 grados, IdealEdge® brinda una forma fácil y accesible de añadir un acabado impecable a cualquier cubierta de laminado Formica®.

IdealEdge® está disponible en cuatro versátiles perfiles: Radio doble, Cascada, Redondeado y Biselado.

IdealEdge®  
PARFAIT SOUS TOUS LES ANGLES DU GROUPE FORMICA

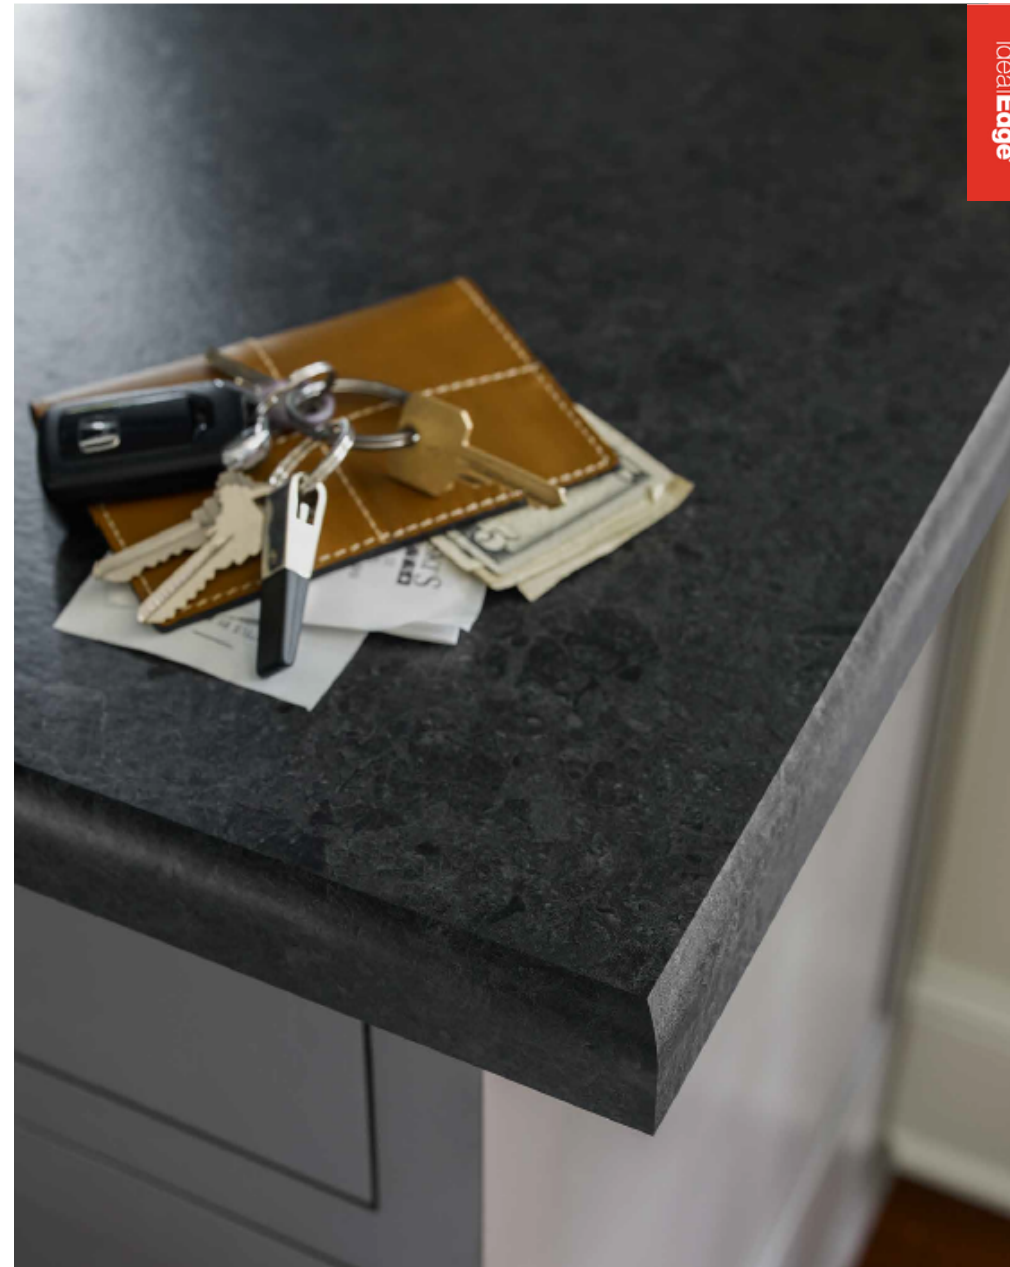

Les bordures décoratives IdealEdge® du Groupe Formica apportent un souffle nouveau aux comptoirs, îlots et tables de travail en stratifiés. Ce que vous voyez est un bord parfaitement fini. Vous ne verrez donc plus les traditionnelles « lignes brunes » des bordures conventionnelles. S'adaptant aux coins courbés, coupés ou en angle de 90 degrés, IdealEdge® est une solution simple et abordable pour obtenir un fini uniforme et propre sur n'importe quel comptoir en stratifié.

Offert en quatre profils de bordures polyvalentes : Double Rayon, Cascade, Arrondi et Doucine.

## Formica® EliteForm

Our innovative Formica® EliteForm surfacing technology redefines the performance attributes of high pressure laminate to deliver a more durable laminate for today's market.

Formica® Laminate with EliteForm features superior scratch resistance and ensures more durable, long-lasting surfaces—including those with the Gloss finish in horizontal applications.

EliteForm comes standard on all Formica® Laminates, at no additional cost.

### Formica® EliteForm

Nuestra innovadora tecnología para superficies Formica® EliteForm redefine los atributos de desempeño del laminado de alta presión para una mayor durabilidad.

El laminado marca Formica® con EliteForm ofrece una mayor resistencia a rayaduras ocasionadas por desgaste de uso cotidiano y asegura superficies de larga durabilidad, incluyendo el acabado brillante (Gloss) en aplicaciones horizontales.

EliteForm está presente en todos los laminados marca Formica® sin costo adicional.

### EliteForm du Groupe Formica

La technologie innovante des revêtements de surface EliteForm du Groupe Formica® redéfinit les attributs de performance du stratifié haute pression fournissant un stratifié plus durable pour le marché d'aujourd'hui.

Avec la technologie EliteForm, le Stratifié de marque Formica® offre une résistance supérieure aux égratignures et garantit des surfaces plus durables, y compris celles avec un fini lustré pour les applications horizontales.

EliteForm est une caractéristique standard de tous les Stratifiés de marque Formica®, offerte sans frais additionnels.

## Formica® Solid Surfacing

SEAMLESS NONPOROUS SURFACES by FORMICA GROUP

As tough as it is beautiful, Formica® Solid Surfacing can be shaped to create virtually any design concept, offering a palette of modern colors for every mood.

Plus, color and design go all the way through to allow endless design and shape options, including edgings, accents and inlays.

The durable, non-porous surface is ideal for a work table or custom bar top, as well as sinks and shower surrounds. Your design creativity with Formica® Solid Surfacing has no boundaries.

*Superficie Sólida Formica®  
SUPERFICIES HOMOGÉNEAS NO POROSAS BY FORMICA GROUP*

*Tan resistente como hermosa, Superficie Sólida Formica® se adapta a cualquier concepto de diseño, ofreciendo una paleta de colores modernos para cualquier ambiente.*

*Además, su color y diseño van más allá para permitir incontables conceptos y formas, incluyendo terminaciones, acentos e incrustaciones.*

*La superficie no porosa de larga duración es ideal para una mesa de trabajo o una barra personalizada en un bar, así como para contornos de tarjas, lavabos y duchas. Con Superficie Sólida Formica®, la creatividad no tiene límites.*

*Surface Solide de marque Formica®  
SURFACES NON POREUSES SANS JOINT DU GROUPE FORMICA*

*Aussi beaux que résistants, les produits en Surface Solide de marque Formica® s'adaptent pratiquement à tous les concepts de design et offrent une palette de couleurs modernes pour toutes les occasions.*

*De plus, la couleur et les motifs sont répartis uniformément sur le produit, ce qui permet de créer un nombre infini de formes et de styles, y compris les bordures, les accents et les incrustations.*

*Cette surface durable et non poreuse est idéale pour une table de travail ou un comptoir de bar personnalisé, ainsi que pour les éviers, les lavabos et les bases de douche. Votre créativité n'a pas de limites avec les produits en Surface Solide de marque Formica®.*

Installations involving a sheet and sink of the same solid color or the placement of two separate sinks next to each other will require close inspection for acceptable color match before fabrication. For additional information about Formica® Solid Surfacing and the actual detailed sink drawings/illustrations or other Formica® brand products, visit [www.formica.com](http://www.formica.com) or call 1-800-FORMICA®.

Las instalaciones de hoja y tarja del mismo color o la colocación lado a lado de dos tarjas separadas, requieren prueba de color antes de la aplicación. Para más información sobre Superficie Sólida Formica®, los dibujos/dimensiones detalladas de las tarjas/ovales u otros productos de la marca Formica®, visite [www.formica.com](http://www.formica.com) o llame al (563) 9534-8820.

Les installations impliquant une feuille et un évier de la même couleur unie ou la mise en place de deux éviers l'un à côté de l'autre nécessiteront une inspection de la correspondance des couleurs avant la fabrication. Pour de plus amples renseignements sur les produits en Surface Solide de marque Formica® et sur les plans et dimensions d'autres produits de marque Formica®, visitez [www.formica.com](http://www.formica.com) ou composez le 1-800-FORMICA.

Formica Ininiti™

Formica® Ininiti

THE NEXT GENERATION IN SURFACING

Visually striking, but with state-of-the-art functionality and surprisingly little maintenance required, Formica Ininiti® is a game changer in surfacing.

As beautiful as it is durable, Formica Ininiti® surfacing features a soft-to-the-touch super matte finish, resists fingerprints and bacterial growth, and has thermal healing capabilities.

Formica Ininiti® is stocked in 16 colors, and available in all Formica® Brand standard colors on a made-to-order basis.

*Formica Ininiti®  
INNOVACIÓN EN SUPERFICIES DECORATIVAS*

*Visualmente impactante a primera vista, con un diseño funcional y un bajo mantenimiento, esto es sólo el principio con Formica Ininiti®, un elemento de cambio en superficies de revestimiento.*

*Tan hermosa como durable, Formica Ininiti® ofrece un acabado súper mate con textura suave al tacto, resistencia a huellas dactilares, con protección antimicrobiana y con propiedades térmicas de reparación.*

*Formica Ininiti® está disponible en 16 colores base, así como en toda la gama de laminados estándar de alta presión marca Formica® bajo pedido.*

*Formica Ininiti™  
LA NOUVELLE GÉNÉRATION DE REVÊTEMENTS DE SURFACE*

*Visuellement saisissant à première vue, avec des fonctionnalités à la fine pointe de l'art et de la technologie, et surprenamment facile d'entretien — Formica Ininiti™ marque le début d'une ère nouvelle dans le domaine des revêtements de surface.*

*Formica Ininiti™ présente un fini super-mat, doux au toucher, aussi beau que durable, anti-traces de doigts et muni d'une protection antimicrobienne qui peut être réparé à l'aide de la chaleur.*

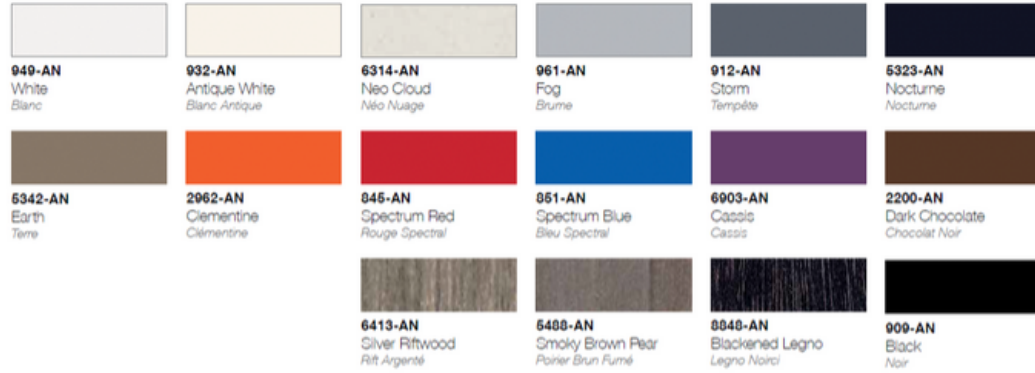

*Les produits Formica Ininiti™ sont stockés en 16 couleurs et sont offerts dans toutes les couleurs de Stratifié de marque Formica® en commande spéciale.*

## ColorCore<sup>®</sup> 2

COLOR THROUGH LAMINATES *by* FORMICA GROUP

A surfacing product with solid color all the way through, ColorCore<sup>®</sup>2 Laminate gets down to business when it comes to performance and versatility. ColorCore<sup>®</sup>2 can be machined, routed or engraved to create striking design effects any way you cut it.

ColorCore<sup>®</sup>2 is ideal for applications such as countertops, cabinets, doors, work surfaces — or anywhere you don't want to see the dark seam lines associated with traditional laminate edges.

Now available in an expanded selection of colors, patterns and finishes, ColorCore<sup>®</sup>2 has been extended to the Formica<sup>®</sup> Compact Structural Interior Laminate and Formica Infiniti<sup>®</sup> Laminate collections. ColorCore<sup>®</sup>2 Compact and Formica Infiniti<sup>®</sup> ColorCore<sup>®</sup>2 both feature color through the core for a beautiful, finished look.

ColorCore<sup>®</sup>2  
LAMINADOS DE COLOR *by* FORMICA GROUP

Un producto para superficies decorativas en todo sentido, el laminado ColorCore<sup>®</sup>2 ofrece tanto desempeño como versatilidad. ColorCore<sup>®</sup>2 puede ser cortado y grabado para crear efectos sorprendentes en diseño.

ColorCore<sup>®</sup>2 es ideal para aplicaciones tales como cubiertas, armarios, puertas, superficies de trabajo o en cualquier lugar en el cual no quiere ver líneas oscuras en las uniones que se asocian a los laminados tradicionales.

Ahora disponible en una mayor selección de colores, diseños y acabados, ColorCore<sup>®</sup>2 se ha extendido a las colecciones de Laminado Compacto Estructural Formica<sup>®</sup> y Formica Infiniti<sup>®</sup>. Tanto ColorCore<sup>®</sup>2 Compacto Fenólico, como Formica Infiniti<sup>®</sup> ColorCore<sup>®</sup>2, se embellecen con color en su núcleo.

ColorCore<sup>®</sup>2  
STRATIFIÉS COULEURS INTÉGRALES DU GROUPE FORMICA

Le stratifié ColorCore<sup>®</sup>2, un revêtement de surface avec un centre de couleur unie intégrale, est le choix par excellence lorsqu'il s'agit de performance et de versatilité. ColorCore<sup>®</sup>2 peut être usiné ou gravé afin de créer un design impressionnant.

Il est idéal pour les applications telles que les comptoirs, les armoires, les portes, les surfaces de travail - ou tout autre endroit où vous ne voulez pas voir les lignes brunes; associées aux rebords des stratifiés traditionnels.

Maintenant offert dans une plus grande sélection de couleurs, motifs et finis, ColorCore<sup>®</sup>2 propose également des produits dans les collections Compact ColorCore<sup>®</sup>2, les panneaux structurels phénoliques, et Formica Infiniti<sup>™</sup> ColorCore<sup>®</sup>2. Compact ColorCore<sup>®</sup>2 et Formica Infiniti<sup>™</sup> ColorCore<sup>®</sup>2 présentent une couleur intégrale à travers la masse offrant ainsi une magnifique finition uniforme.

## Formica® Compact

STRUCTURAL PHENOLIC PANELS by FORMICA GROUP

Versatile, practical and beautiful, Formica® Compact is a structural, two-sided decorative panel that is ideal for interior use such as wall panels, restroom partitions, counters, utility cabinets or furniture.

Choose from a fresh palette of Formica® Brand Laminate solid colors, rich woodgrains and patterns that range from elegant stone looks to abstract graphics. Formica® Compact features two decorative sides and can be shaped to fit any interior horizontal or vertical surfacing design. It doesn't require a substrate and can be drilled, routed, tapped and sanded as required. Formica® Compact features both strength and durability with resistance to impact, water and humidity.

Formica® Compact is available in three solid colors and multiple patterns as ColorCore®2 Compact with coordinating solid-core color instead of the traditional black core.

Compacto Fenólico Formica®  
PANEL ESTRUCTURAL by FORMICA GROUP

Versátil, práctico y hermoso, Compacto Fenólico Formica® es un panel estructural con dos caras decorativas, ideal para aplicaciones en espacios interiores tales como muros, mamparas, mostradores, gabinetes o muebles.

Seleccione entre una gama de colores de laminado marca Formica®: colores sólidos, apariencias madera y diseños que van desde estilos de elegante piedra hasta gráficos abstractos. Compacto Fenólico Formica® cuenta con dos caras decorativas y puede adaptarse a cualquier diseño de superficie horizontal o vertical en interiores. No requiere de sustrato y puede taladrarse, rebajarse, perfilarse y pulirse en caso necesario. Este producto es durable y resistente a impactos, agua y humedad.

Compacto Fenólico Formica® está disponible también como parte de la línea ColorCore®2 Compacto Fenólico en tres colores sólidos y múltiples diseños, con su combinación de color en el núcleo, en lugar del tradicional núcleo negro.

Compact de marque Formica®  
PANNEAUX STRUCTURELS PHÉNOLIQUES du GROUPE FORMICA

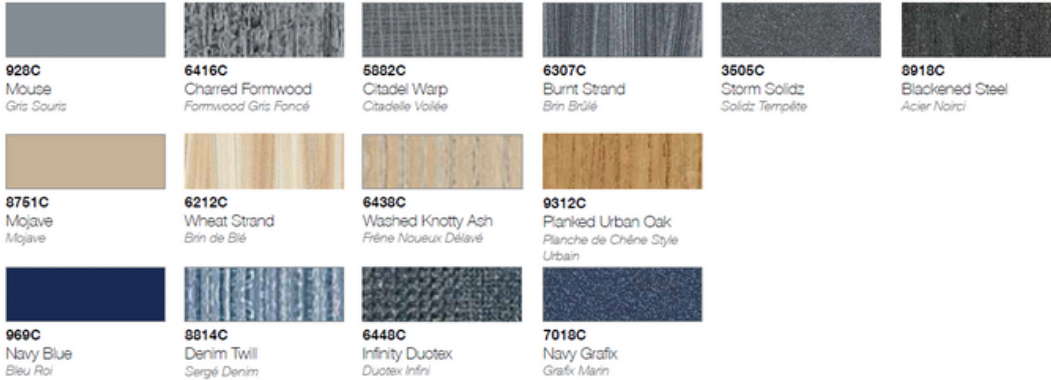

Beau, polyvalent et pratique, le panneau décoratif structurel à deux faces Compact de marque Formica® est idéal pour les usages intérieurs comme le recouvrement de panneaux muraux, de comptoirs, d'armoires utilitaires ou de meubles ainsi que pour des partitions de toilettes.

Faites votre choix parmi notre collection de Stratifié de marque Formica®, qui vous offre des couleurs unies, de riches grains de bois et plusieurs motifs allant de l'élégance de la pierre aux motifs plus abstraits. Le stratifié Compact de marque Formica® possède 2 côtés décoratifs et peut être transformé afin de s'adapter à n'importe quelle application intérieure verticale ou horizontale. Aucun support n'est nécessaire et il peut être percé, usiné, collé et poncé au besoin. Le stratifié Compact de marque Formica® est à la fois durable et résistant, notamment aux impacts, à l'eau et à l'humidité.

Le stratifié Compact de marque Formica® est offert en 3 couleurs unies et plusieurs motifs dans la collection Compact ColorCore®2, dont le centre est de couleur unie intégrale au lieu du centre noir traditionnel.

# FORMICA®

# LAMINATE OPTIONS

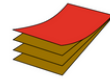

## Formica® Laminate

The Original High Pressure Laminate **by FORMICA GROUP**

Formica® High Pressure Laminate (HPL) is manufactured through fusing multiple layers of paper under high pressure and temperature to create a durable and hygienic surfacing material. Formica® Laminate comes in a variety of upbeat hues, nature-inspired tones and well-chosen neutrals that go with everything. Mix and match solids, woodgrains, graphic patterns or stone looks to achieve your project goals.

*Laminado Formica® — El laminado de alta presión original by Formica Group*  
El laminado de alta presión (HPL) marca Formica® es manufacturado a través de alta presión y temperatura utilizando múltiples capas de papel para crear una superficie durable e higiénica. Los laminados marca Formica® ofrecen vibrantes colores, tonos inspirados en la naturaleza y neutros básicos que van bien para todo tipo de presupuesto. Mezcle colores sólidos, diseños, acabados maderas o piedras para lograr los objetivos de su proyecto.

*Stratifié de marque Formica® — Stratifié haute pression original du Groupe Formica*  
Le Stratifié haute pression original de marque Formica® (HPL) fait appel à la fusion thermique de plusieurs couches de papier sous haute pression pour créer un matériau de surface durable et hygiénique. Les Stratifiés de marque Formica® sont offerts dans des teintes vibrantes et colorées, dans des tons inspirés de la nature ou des tons neutres bien choisis pour s'agencer à tout. Combinez et agencez des couleurs unies, des motifs de grains de bois, des motifs graphiques ou des imitations de pierre pour réaliser vos projets.

## Formica® EliteForm

EliteForm technology improves the scratch resistance and durability of Formica® Laminate. Formica® EliteForm technology is an enhanced manufacturing process that delivers superior product performance over other leading competitor brands.

*Formica® EliteForm*  
La tecnología EliteForm ofrece mayor durabilidad y una resistencia superior a rayaduras ocasionadas por el desgaste cotidiano. Con la tecnología EliteForm, usted puede disfrutar de un producto de mayor calidad y duración que el de otras marcas en el mercado.

*EliteForm de marque Formica®*  
La technologie EliteForm améliore la résistance aux égratignures et la durabilité des Stratifiés de marque Formica®. La technologie EliteForm de marque Formica® est un procédé amélioré qui offre des performances supérieures à celles des autres grandes marques concurrentes.

## IdealEdge®

PERFECT FROM ANY ANGLE **by FORMICA GROUP**

IdealEdge® Decorative Edging is composed of pre-shaped medium density fiberboard (MDF) wrapped with post-formed Formica® high pressure laminate. Available in a variety of profiles, IdealEdge® brings a clean look to surfaces by removing brown seam lines.

*IdealEdge® — Perfecto desde cualquier ángulo by Formica Group*  
El perfil decorativo IdealEdge® se compone de MDF pre-moldado y revestido con laminado de alta presión marca Formica® postformado. Disponible en una variedad de perfiles, IdealEdge® brinda una apariencia limpia a las superficies al no dejar líneas oscuras visibles en las orillas.

*IdealEdge® — Parfait sous tous les angles du Groupe Formica*  
Les bordures décoratives IdealEdge® sont composées de panneaux de fibres de densité moyenne (MDF) préformés et recouverts d'un stratifié haute pression de marque Formica® moulé. Offert dans une variété de profils, IdealEdge® apporte une apparence nette aux surfaces en éliminant les lignes brunes.

## Formica® Infiniti

THE NEXT GENERATION IN SURFACING

Formica Infiniti® is created by combining ultrafine embossing with a patent-pending manufacturing process that creates a pleasing soft-to-touch, fingerprint resistant, and anti-microbial surface protection. Burnished areas on Formica Infiniti® are able to be thermally healed (refer to technical guide on formica.com for details). It is ideal for high traffic areas like hotels, retail, healthcare, offices, educational spaces, quick-serve restaurants — any setting that calls for countertops, tables, doors, partitions, cabinets or furniture. Formica Infiniti® is available in all standard Formica® Brand colors and patterns.

*Formica Infiniti® - Innovación en superficies decorativas*  
Formica Infiniti® se crea mediante la combinación de un repujado ultra fino con un proceso de fabricación de patente pendiente que resulta en una superficie suave al tacto, resistente a huellas dactilares y antimicrobiana. La reparación de ciertas áreas de la superficie de Formica Infiniti® es viable a través de calor (para mayor detalle referirse a la guía técnica en formica.com). Es ideal para áreas de alto tráfico como hoteles, tiendas, consultorios, oficinas, espacios educativos, restaurantes o cualquier lugar donde se requieran cubiertas, mesas, puertas, mamparas, gabinetes o muebles. Formica Infiniti® está disponible en toda la gama de colores y diseños estándar de la marca de laminado Formica®.

*Formica Infiniti™ - La nouvelle génération de revêtements de surface*  
Formica Infiniti™ a été créé en combinant un gaufrage ultrafin et un processus de fabrication en instance de brevet pour réaliser une surface douce au toucher, anti-traces de doigts et antimicrobienne. Les zones brunes de Formica Infiniti™ ont la capacité d'être thermiquement restaurées (pour plus d'information sur le sujet, consultez le guide technique sur formica.com). C'est le choix idéal pour un endroit très achalandé comme un hôtel, un commerce, une clinique, un bureau, une salle de classe, un casse-croûte — n'importe quel endroit composé de comptoirs, de tables, de portes, de cloisons, de cabinets et/ou de meubles. Formica Infiniti® est offert dans toutes les couleurs et les motifs standards de marque Formica®.

## ColorCore®2

COLOR THROUGH LAMINATES **by FORMICA GROUP**

ColorCore®2 by Formica Group is a surfacing material that features the high performance characteristics of Formica® Laminates with the added dimension of solid through color. This collection eliminates the dark line associated with standard laminate and permits decorative effects such as engraving and routing. ColorCore®2 is available in select Formica® colors. Color may vary between ColorCore®2 and standard laminate. ColorCore®2 is ideal for applications such as casework, countertops, cabinets, doors and work surfaces.

*ColorCore®2 — Laminados de color by Formica Group*  
ColorCore®2 by Formica Group es una superficie que ofrece las cualidades de alto desempeño del laminado Formica® con una dimensión extra de color. Esta colección elimina la línea oscura asociada al laminado estándar y permite efectos para decoración como grabado. ColorCore®2 está disponible en colores selectos de Formica®. El color puede variar entre ColorCore®2 y el laminado estándar. ColorCore®2 es ideal para aplicaciones como cubiertas, gabinetes, puertas y superficies de trabajo.

*ColorCore®2 — Stratifiés Couleurs Intégrales du Groupe Formica*  
ColorCore®2 du Groupe Formica est un matériau de revêtement qui offre la haute performance caractéristique des Stratifiés de marque Formica®, tout en y ajoutant l'effet additionnel d'une couleur unie, répartie uniformément sur l'ensemble de sa surface. Cette collection élimine la ligne brune associée au stratifié standard et permet des effets décoratifs tels que la gravure et la fraisure. Le produit ColorCore®2 est offert dans certaines couleurs des stratifiés de marque Formica®. La couleur peut varier entre le ColorCore®2 et le stratifié standard. Les stratifiés de la collection ColorCore®2 conviennent parfaitement aux applications telles que la menuiserie d'agencement, les comptoirs, les armoires, les portes et les surfaces de travail.

## Formica® Compact

STRUCTURAL PHENOLIC PANELS **by FORMICA GROUP**

Formica® Compact is a high-pressure structural laminate, built from multiple layers of black kraft papers with a decorative surface on both sides. Formica® Compact is available in multiple thicknesses ranging from 1/8" to 1" (3.18mm to 25.4mm). Formica® Compact is water and impact resistant with remarkable structural stability, requiring no substrate: can be routed to create different shapes and forms. This product is ideal for interior applications such as countertops, wall panels, worktops, restroom partitions, utility cabinets and more.

*Compacto Fenólico Formica® — Panel estructural by Formica Group*  
Compacto Fenólico Formica® es un laminado estructural de alta presión, construido a partir de múltiples capas de papel kraft negro con una superficie decorativa por ambos lados. Compacto Fenólico Formica® está disponible en múltiples grosores desde 1/8" hasta 1" (3.18mm a 25.4mm). Compacto Fenólico Formica® es resistente al agua y a impactos con considerable estabilidad estructural, sin requerir sustituto; puede ser usado para crear diferentes formas. Este producto es ideal para aplicaciones en espacios interiores tales como cubiertas, muros divisorios, mamparas de baño, gabinetes y más.

*Compact de marque Formica® — Panneaux structuraux phénoliques du Groupe Formica*  
Compact de marque Formica® est un stratifié structural haute pression, construit à partir de plusieurs couches de papier kraft noir recouvertes d'une surface décorative sur ses deux faces. Le produit Compact de marque Formica® est offert en plusieurs épaisseurs de 1/8" à 1" (de 3.18 mm à 25.4 mm). Le stratifié Compact de marque Formica® est résistant à l'eau et aux chocs. Offrant une stabilité structurelle remarquable, il ne nécessite aucun substrat et peut être profilé afin de créer des formes variées. Ce produit est idéal pour des applications intérieures comme les comptoirs, les panneaux muraux, les surfaces de travail, les partitions de toilettes, les armoires utilitaires, etc.

## dECOLeather®

RECYCLED LEATHER VENEER **by FORMICA GROUP**

dECOLeather® Recycled Leather Veneer by Formica Group is comprised of 70% recycled leather fibers, natural latex rubber and other binding agents. It easily bonds to MDF, particleboard and plywood with the same adhesives as HPL. dECOLeather® is a sustainable product made with rapidly renewable materials and does not have a phenolic backer. It has multiple layers of water-based protective coatings to provide it's durability. dECOLeather® is ideal for hotels, restaurants, stores, offices, or any setting that calls for tables, furniture, doors, cabinets and feature walls. Available in 18 colors and three finishes.

*dECOLeather® — Revestimiento de piel reciclada by Formica Group  
El revestimiento de piel reciclada dECOLeather® by Formica Group está compuesto en un 70% de fibras de piel reciclada, goma de látex natural y otros agentes adhesivos. Fácilmente aplicable a MDF, aglomerado y triplay con los mismos adhesivos que se usan para el laminado de alta presión. dECOLeather® es un producto sustentable hecho con materiales renovables rápidamente y no tiene respaldo fenólico. Cuenta con múltiples capas de recubrimientos protectores a base agua para proveer su durabilidad. dECOLeather® es ideal para hoteles, restaurantes, tiendas, oficinas, o cualquier lugar donde se requieran mesas, muebles, puertas, gabinetes o muros. Disponible en 18 colores y tres acabados.*

*dECOLeather® - Placage en cuir recyclé du Groupe Formica  
Le placage en cuir recyclé dECOLeather® du Groupe Formica est composé de 70% de fibres de cuir recyclé, de latex de caoutchouc naturel et d'autres éléments liants. Il fusionne parfaitement avec les panneaux de fibres à moyenne densité (MDF), les panneaux de particules et les contreplaqués. Il offre la même adhésion que le stratifié haute pression (HPL). dECOLeather® est un produit durable fait de matériaux rapidement renouvelables et sans couche phénolique au verso. Il possède un enrobage de plusieurs couches de protection à base d'eau qui lui assurent une grande durabilité. dECOLeather® convient parfaitement aux hôtels, aux restaurants, aux boutiques, aux bureaux de commerces, ainsi qu'à tout décor composé de tables, de meubles, de portes, d'armoires ou de murs d'accent. Offert en 18 couleurs et trois textures.*

## Formica® Solid Surfacing

SEAMLESS NONPOROUS SURFACES **by FORMICA GROUP**

Formica® Solid Surfacing is a durable, non-porous product which is made of acrylic or modified polyester. It shapes itself into virtually any design concept, offering a palette of modern colors for every mood. Color and design go all the way through to allow endless design and shape options, including edgings, accents and inlays.

*Superficie Sólida Formica® — Superficies no porosas no porosas by Formica Group  
Superficie Sólida Formica® es una superficie durable, no porosa la cual está hecha de acrílico o políéster modificado. Se adapta virtualmente a cualquier concepto, ofreciendo una variedad de colores modernos para cada estilo. Color y diseño sin fin en bordes, incrustaciones y acentos.*

*Superficie Sólida de marca Formica® — Superficies non poroses sans joint du Groupe Formica  
Superficie Sólida de marca Formica® est un produit durable, non poreux, fait d'acrylique ou de polyester modifié. Il s'adapte pratiquement à tous les concepts de design et offre une palette de couleurs modernes pour toutes les occasions. La couleur et les motifs sont répartis uniformément sur le produit, ce qui permet de créer un nombre infini de formes et de styles, y compris les bordures, les accents et les incrustations.*

## DecoMetal®

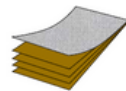

METAL LAMINATES & SOLID METALS **by FORMICA GROUP**

DecoMetal® by Formica Group is a High Pressure Laminate created using real metal foils over a laminate core to form stunning metallic looks. A variety of colors with textures are available to promote any design inspiration.

DecoMetal® can only be used as light-duty horizontal, and vertical applications like feature walls, cabinet fronts, and bar surrounds.

*DecoMetal® — Laminados metálicos by Formica Group  
DecoMetal® by Formica Group es un laminado de alta presión creado de láminas metálicas reales sobre un laminado base dando como resultado una sorprendente apariencia metálica. Disponible en varios colores y texturas para inspirar el diseño. DecoMetal® puede ser usado de forma horizontal únicamente para tráfico ligero, y para aplicaciones verticales como muros, frentes de gabinetes y laterales de barras en bares.*

*DecoMetal® — Stratifiés métalliques du Groupe Formica  
DecoMetal® du Groupe Formica est un stratifié haute pression fabriqué avec de véritables feuilles de métal appliquées sur une base de stratifié pour créer de saisissants finis métalliques. Une variété de couleurs et de textures est offerte pour convenir à toutes les inspirations de design. DecoMetal® peut seulement être utilisé pour des applications horizontales à usage restreint ou verticales, telles que la surface d'un mur d'accent, les façades des armoires ou un bar.*

Nevamar® introduces the

## Yesteryears™ COLLECTION

### Nevamar® turns 80!

What's old is new again. Nevamar is proud to celebrate its 80th year in style by introducing the Yesteryears™ Collection, a mix of 20 new and retro inspired designs. These rich woodgrains, abstracts and solids are inspired by some of our favorite patterns over the past 80 years

Featuring a dynamic range of trend-setting styles, our designs are sleek and timeless allowing you design flexibility that take you back in time.

## Finish Options

Nevamar high pressure laminates are available in 22 different finishes designed to enhance the look and texture of any project. Please contact your local Nevamar representative or visit [Nevamar.com](http://Nevamar.com) for finish samples, grade and sheet availability. For quicker processing of your sample request, kindly use the designated finish code as listed below.

- Aged Bark (AB)** Medium-grain weathered wood
- Armored Protection® (ARP) (T)** Low gloss, textured finish with ARP
- Ashwood (AW)** Fine woodgrain with cathedral
- Barnboard (BB)** Linear plank, matte woodgrain
- Crystal (CR)** Fine pebbled finish, medium gloss
- Evolution (EV)** Smooth surface enhanced by contrasting matte and gloss organic texture
- Fineline (FL)** Deep, fine-grained linear pattern
- Gloss (GL)** High gloss, smooth finish
- Granite (GR)** Polished stone textured finish
- Groovy (GV)** Eclectic abstract pattern that appears to create motion
- LineZ (LZ)** Deeply embossed woodgrain
- Medium Gloss (MG)** Medium gloss, smooth finish
- Natural Stone (NS)** Matte surface accentuates the indentations offering a time-worn look
- Polished Velvet (PV)** Smooth, textured furniture finish
- Slate (SL)** Deeply embossed slate finish
- Soft Leather (LR)** Finely grained leather finish StoneX (SX) Natural and polished stone surface
- Super Matte (SM)** Smooth, non-reflective surface Textured | Suede (SD) Low gloss, textured finish
- Timberline (TL)** Wide grained linear texture
- Velvet (VE)** Smooth, finely grained surface
- Wood Essence (WE)** Natural, linear woodgrain finish

## Environmental Features

No matter which pattern you choose, Nevamar makes your laminate green!

Nevamar's low emission products are GREENGUARD® certified.

By formulating our own resins, we can assure you of an eco-conscious manufacturing process.

Nevamar laminates are easy to clean without using harsh chemicals.

Our products are manufactured with kraft and decorative paper from recycled or renewable sources to help preserve our forests and promote a healthier environment.

Distribution centers are strategically located across the country to reduce the use of fossil fuels when delivering Nevamar products .

Nevamar HPL surfaces do not support bacterial growth making them an ideal choice for healthcare, education and food service installations.

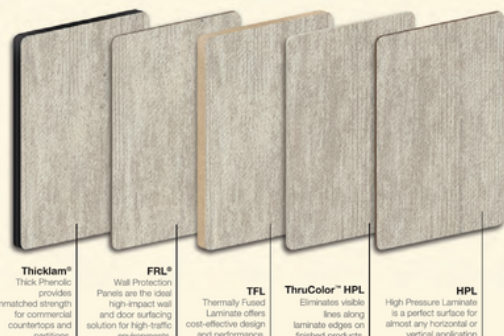

The mark of responsible forestry

Multiple surfaces.  
One system.  
Amazing possibilities.

### Same design. Different substrates

Nevamar continues its long-standing tradition of design and technical innovation featuring a broad selection of quality products. Today, our High Pressure Laminates (HPL) are more versatile than ever, with more design-forward patterns, accent colors, and finishes than ever before. Simply look at what we offer among our specialty laminates and you will know exactly what we mean.

**Thicklam®**  
Thick Phenolic provides unmatched strength for commercial countertops and partitions.

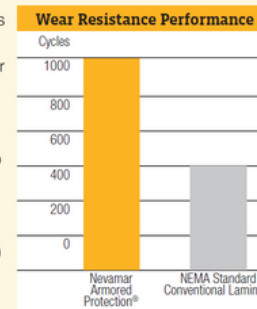

**FRL®**  
Wall Protection Panels are the ideal high-impact wall and door surfacing solution for high-traffic environments.

**TFL**  
Thermally Fused Laminate offers cost-effective design and performance.

**ThruColor™ HPL**  
Eliminates visible lines along laminate edges on finished products.

**HPL**  
High Pressure Laminate is a perfect surface for almost any horizontal or vertical application.

Armored Protection® laminates exclusively from Nevamar® provide more than 2X the wear protection of standard laminates, keeping your designs looking new longer. For unsurpassed resistance to abrasions and scuffs without sacrificing clarity of design, choose Nevamar laminates with Armored Protection (ARP) technology.

## Technical Specifications

Technical information listed below applies to high pressure decorative laminates. For additional technical data, specification sheets, and three-part CSI, visit [nevamar.com](http://nevamar.com).

### STANDARD LAMINATE

Nevamar Standard Laminate is designed for either horizontal, vertical, or postforming applications. Typical uses include countertops, tables, vanities, interior doors, cabinets, contract furniture, and retail store fixtures. Three standard grades of Nevamar laminate are suitable for most applications.

#### G48 General Purpose Grade

**Nominal Thickness 0.048"/1.2 mm (NEMA HGS).** Most often used in horizontal applications where high-impact resistance and a durable, decorative surface is required.

#### F39 Postforming Grade

**Nominal Thickness 0.039"/1.0 mm (NEMA HGP).** Designed for manufacturing countertops and other horizontal surfaces where the laminate may be heated and rolled over the substrate edge to eliminate seams.

#### F28 Postforming Grade

**Nominal Thickness 0.028"/0.7 mm (NEMA VGP).** Designed for surfaces where impact resistance is less critical.

### SPECIALTY PRODUCTS

#### ThruColor™ HPL Laminate

ThruColor HPL is intended for use in applications where the edge of laminate contributes to the aesthetics of the final product. Nevamar's proprietary manufacturing process provides a second generation color-through laminate that is more flexible and much less likely to chip than other color-through laminates. ThruColor HPL colors and their corresponding colors in standard Nevamar are not exact matches. Sample evaluation is recommended. Ideal for high-wear horizontal and vertical applications such as high-end furniture.

#### ChemGuard Chemical Resistant Laminate

Available in thicknesses up to 1" (25.4 mm). Nevamar ChemGuard incorporates the decorative features of high pressure laminate into a durable, chemical resistant surfacing material. The unique manufacturing process of Nevamar ChemGuard results in a product with excellent chemical resistant properties. This feature ensures that the ChemGuard surface is more chemical resistant than competitive laminate. Nevamar ChemGuard's superior chemical resistant surface cannot be softened with heat for postforming. ChemGuard is ideal for education labs, culinary testing facilities, photographic darkrooms, nurses stations, medical, dental, and veterinary work areas and mortuaries. Thicker ChemGuard laminate can be used as structural components in laboratory bench tops precluding the use of a substrate.

#### ThickLam® Thick Phenolic Core Laminate

Available in thickness up to 1" (25.4 mm). Designed for applications where the decorative surface must contribute to the structural stability of the finished assembly. ThickLam offers the same chemical resistance properties as standard Nevamar laminate. ThickLam thick phenolic can be manufactured with enhanced chemical resistance and is available with Class A Fire rating if requested. Available in the following configurations: decorative both sides and decorative one side. Available with black or brown edge. Typical uses include toilet and dressing room privacy partitions, tabletops, doors, workstations, wall panels, and desktops.

#### Fire Rated Laminate

Designed for applications where a decorative surface must resist combustion and inhibit smoke production. Fire rated laminate is classified by Underwriter's Laboratory, Inc. under File R6581 in both the US and in Canada. Please refer to Nevamar Fire Rated Technical Bulletin for products available as IMO certified. Typical uses include elevator cabs, hospitals, schools, airports, hotels, and other public buildings where strict fire codes apply.

#### Hi-Wear Laminate

Designed for applications requiring increased abrasion and scuff resistance, the product offers more than five times the wear resistance of standard grade laminate. Due to the manufacturing process, Nevamar Hi-Wear laminate will vary in color from corresponding colors in standard Nevamar. This effect is more pronounced in darker colors and patterns. Sample evaluation prior to order placement is recommended. Typical uses include buffet counters, salad bars, checkout counters, kickboards, bartops, and restaurant counters.

#### ESD (Electrostatic Dissipative Laminate)

Developed specifically for surfacing workstations where static-sensitive electronic components are manufactured and assembled. ESD is post-formable. Works well in hospitals, medical facilities, and clean rooms as the surface will not attract dust or dirt particles. Due to the unique composition of this product, SDL colors and their corresponding colors in standard Nevamar are not exact matches. Sample evaluation is recommended.

### How to Specify:

	EXAMPLE
Color Name	Galao
Color Reference Number	WX0075
Finish	Aged Bark (AB)
Size	3' x 8' or 3' x 10' 4' x 8' or 4' x 10' 5' x 8' or 5' x 10'

**HÄFELE** &  ONEPOINTE SOLUTIONS

We have partnered with Häfele America Co. to give you a multitude of handle options for your PLAM furniture. If it's possible, we can get you any handle you desire.

For a full catalog of handle options, please contact us.

"Häfele" is a trademark or registered trademark of Häfele GmbH & Co., a company related to Häfele America Co. through common ownership.

## Edge Banding

For edge banding, we offer standard configurations to even most rare. When designing your PLAM furniture, just let us know what you're looking for and we can make it happen.

## Castors

Just like our metal and wood mobile cabinets, you can add castors to your PLAM casework. We offer a number of options to customize your furniture to how you see fit.

**TOTAL LOCKING CASTER**

FOOT-CAST4-AV-PLATE  
Load Rating (Per Set of 4): 1,200 lbs

**HEAVY DUTY LEVELING CASTER**  
FOOT-CAST2.5-HD  
Load Rating (Per Set of 4): 2,400 lbs

Our plastic laminate casework is part of our line of custom industrial furniture and is made to align perfectly with your target aesthetic, layout, and budget. Owners and managers of dental offices, schools, libraries, apartment complexes, laboratories, testing facilities, warehouses, hotels, restaurants, and more trust our heavy-duty cabinets.

We guarantee short lead times, competitive pricing, and sleek, durable installations equipped with any finish.

With over 40 years of combined casework manufacturing experience, we offer the shortest lead times and highest quality in the custom commercial furniture industry.

## QUALITIES

### Heavy-Duty Construction

We typically use plywood or particleboard. Plywood is very heavy-duty, and serves as a great frame to support heavy countertops. Particleboard is a less expensive alternative that is more vulnerable to temperature and moisture damages, as well as screw and joint blow-outs.

### Sturdy Back Panel

Strongback panels are important for sturdy cabinets. Picture-frame backs, metal hang rods and rails, and thin panels can create massive liabilities in exchange for a reduced cost. Our full-height back panel cabinets are always built to withstand heavy loads and impacts. Choose cabinets with a thick back wood panel, and avoid thin particleboard panels that weakened the durability of the frame.

### Soft-Close Hinges

We use high grade soft-close hinges in every single one of our cabinets. Poorly constructed hinges can cause loose, stiff, or uneven doors, and lead to costly damage over time. Our soft-close hinges are fully adjustable and eliminate noisy door and drawer slams. The nickel-plated, hardened steel construction of our hinges includes full six-way adjustability, both up-down and left-right.

### Fully Assembled in Factory

Our cabinets ship fully built, and are delivered with custom packaging to bring the probability of damage during freight nearly to zero. We send installers on-site who will stay until you are 100% satisfied with your cabinet configuration. That's our project completion guarantee. We offer many configurations, and are confident we will become your go-to casework supplier.
