

# Marble Balance Tables

## Features

- Superior Vibration Control
- Extreme High Chemical & Staining Dye Resistance
- Perfectly Smooth Surface
- Waterproof
- Non-porous
- 4x Stronger than Natural Stone
- Superior Impact & Thermal Shock Capabilities
- High Durability
- Clear-Gel Coat Top

## DETAILS & SPECIFICATIONS

Marble balance tables, from OnePointe Solutions, absorb the shock created by environmental vibrations, as well as, providing a stable worksurface to perform sensitive tasks and experiments on.

Made with cured marble and patented technology, our marble balance tables provide several advantages over natural marble and concrete tables like product longevity, high chipping resistance, and lower cost.

Reinforced with a lateral steel beam for additional support and rigidity, built to last and SEFA certified, our marble balance tables are capable of being a reliable addition to your lab for imperative and delicate tasks alike.
